What is Classical Education?

Classical education is a three-part process of training the mind. This three part process is call the Trivium. The early years of school are spent in absorbing facts, systematically laying the foundation for advanced study. In this three-part process the student learns GRAMMAR (the science of language), LOGIC (the science of reasoning and thought), and RHETORIC (the science of verbal and written expression). This *Classical Trivium* is applied to all subjects.

Classical Education since the times of Socrates, Shakespeare, Galileo, Christopher Columbus and the scholars of Classical Greece and Rome has produced the greatest minds.
